8 July 1959

MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: SAC Staff Study, "Maximum Exploitation of
Reconnaissance Photography"

1. Attached hereto is a copy of the subject study which PIC has just obtained. As you will note, it has no classification and apparently a copy has been forwarded to Eastman Kodak. The author, Major Daniel Anderson USAF, has spent much time at PIC gathering his ideas and conclusions.

2. It is most interesting to me to note that the whole study is by and large a restatement of what we have done or are in process of doing at PIC. This adds to our confidence, but I would hope that SAC might be able to suggest a few advanced ideas that we might consider and profitably adopt.

3. The study is forwarded for your information and return to us. SAC does not know that we have it, and I feel that we should be discreet in our handling or discussion of it.

ARTHUR C. LUNDAHL

Director
